PROJECTS

SPOOFIFY (Rails, React, Redux, HTML5, AWS and CSS3)   Live | GitHub
A full-stack, single-page Spotify clone where users can stream music and create playlists –
- Integrated React Player with Redux's global store by dispatching actions only when sharing information across components and encapsulation music player data to give the user a seamless, uninterrupted experience
- Implemented a multi-session user authentication model with session tokens and BCrpyt for password hashing
- Incorporated AWS storage to reduce server but storing songs and images

GOVERNMENT SPENDING (JavaScript, HTML, CSS, Chart.js, and D3.js)   Live | GitHub
A vanilla JavaScript government spending data visualization –
- Parsed and aggregated USAspending API data for a layman's overview on federal spending
- Designed dynamic data-visualizations with JavaScript, D3 and Chart.js
- Designed CSS animations with keyframes to improve UX
